

The Company

Ryaneil Technologies – India has been recently incorporated in Bangalore – India following an expansion strategy lead by its parent company **Falcon Wagering Solutions Pty Ltd**, based in Melbourne – Australia. Falcon is an industry leading B2B company that delivers complex, smart, and innovative software solutions to the Sports Betting Industry. It is currently the leading software provider for many well-known Soccer Fixed Odds Bookmaking operators in Mauritius.

If you are an enthusiastic Front-End Developer looking for a rewarding career and ready to challenge yourself working on complex, real-time and very dynamic solutions, then look no further, send us your resume and expression of interest to jobs@falconwager.com and our friendly Australian and Indian team will revert to you once your application has been processed.

The Opportunity – Front End Developer – Bangalore Office - India

As a Front-End Developer specializing in Angular and React, you will play a pivotal role in developing and enhancing the client's platform using your expertise. Your role will primarily focus on delivering robust, and high-availability front-end solutions with ad-hoc contribution to back-end solutions, collaborating with other international teams to deliver robust and scalable solutions.

Responsibilities

Independently develop enhancements and features, requiring little direction or help from fellow team members as well as working in conjunction with the team on more extensive projects.

Develop high-quality, well factored code, reusable, testable, and efficient.

Design and implementation of robust, low-latency, high-availability, and performant applications

Implement the best practices in security and data protection.

Collaborate with the Product Manager, user groups / offshore teams to help gather requirements.

Involved in the development itself, play a fully active role in team decisions, and be expected to help out in other areas when required.

Enhance existing software systems by identifying and correcting software defects. Investigate and develop skills in new technologies.

Troubleshoot and respond to production system issues when required.

Key Skills

Recent 2-3 Years hands on development experience in complex, high availability, transactional web interfaces.

Expert in Angular and React.js

Excellent Hands Experience with HTML5, CSS, Material UI, Bootstrap, JavaScript, TypeScript, MVC

Reasonable understanding and previous experience in .Net Core Web App, Web Api and C#

Crafts user-friendly interfaces with an eye for detail.

Understands performance optimization and responsive design principles.

Good to Have Skills - Not Mandatory

Android / IOS Development using Xamarin C#, Flutter or any other development tool platform.

Worked on previous projects related to the Sports Betting Industry

Prior experience in building analytical tools and AI exposure

Incentives

Relevant technology and personal skills training.

Opportunities to travel to Australia and Mauritius to see and experience firsthand how the operations works and to meet other members of the teams as well as our clients.

Potential for relocation to Australia or Mauritius if the opportunity arises.

Additional Company Information

Falcon Wagering Solutions Australia has been in operations for 6 years and is the leading sports betting service provider in Mauritius. We offer our clients a range of products from Over-the-Counter Betting Terminals, Self Service Betting Kiosk, Online Betting Portals, Risk Management and Reporting Tools, and not limited to the above.

We process over 150+ Million betting transactions on a yearly average, across 100+ physical retail outlets and over 2000+ Betting Terminals. There are also multiple upcoming opportunities and projects which includes AI integration to our risk management platform, moving our platform to a cloud service / subscription base to allow fast and easy roll out in Africa.

If you are this highly skilled, keen, and motivated individual and looking for a challenge in a revolutionary fast paced industry, then look no further.
